i3-TECHNOLOGIES

i3LEARNHUB

Anytime. Anywhere. Any device.
i3LEARNHUB is plug & play. It is easily accessible on any device. Whether you are at home, on the train or in the classroom, if you see an idea on the internet, you can easily add it to your lesson in i3LEARNHUB, on your laptop, via the interactive board, or via your tablet or smartphone. i3LEARNHUB is a cloud-based solution so no installation or disc space needed.

AWARDS 2018
FINALIST

NEW! - Start your lesson in the blink of an eye, with i3FASTTRACK.
This app allows you to log into i3LEARNHUB quickly on any device. Just download the i3FASTTRACK App, enter your credentials once. Now you can simply scan the QR code from the i3LEARNHUB homepage and you are in! No need to type or retype your login and password and it is always secure.

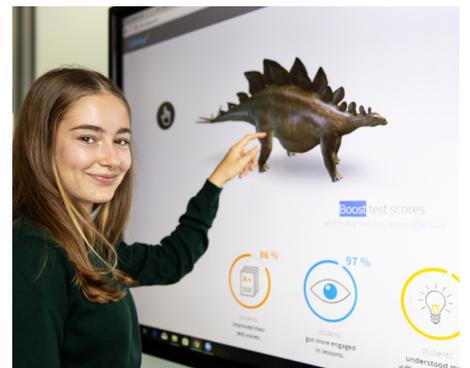

No training needed
The learning platform has a simple interface that requires no training so it is easy to navigate. The buttons are all are easy to find and understand. Organise your favorite features in a floating toolbar, so you will not waste time looking for buttons or understanding which button does what.

Supports traditional work forms
Combine traditional measuring tools with digital technology. We offer a compass, set square and ruler to use on the interactive whiteboard. This is perfect to make geometry exercises easier to understand for your students.

Thousands of pre-made assets
Enjoy free access to a built-in community with thousands of lesson activities created by fellow teachers. You can see how they use the software, and build on their work and ideas. Make it easy to engage your students with minimal preparation time.

System requirements:

I3LEARNHUB will work on any device that is capable of running a modern browser. This means computers, tablets and almost all smartphones. i3LEARNHUB system requirements: Windows 7, OSX, Ubuntu 10.10, iOS6, Android 4, Windows RT, Windows Phone 8, Blackberry OS 10 or higher. i3L-EARNHUB is currently optimized for screen sizes of 7" or larger. If you are unsure of what hardware you need, i3 can provide you with an integrated solution. Bandwidth: For initial loading times under 20s, we recommend a bandwidth of 15Mbps (download) or higher. Bandwidth requirements for loading lessons will vary depending on the content.

For a smooth experience in 4K resolution, we recommend adding a dedicated GPU to your setup (Geforce GT730; GTX1050 or similar)
